

Owls of Ohio

See live Ohio owls at this popular annual exhibit! Children can participate in hands-on activities and play some outdoor games.

Two special programs are being offered for children ages 3 and up who may benefit from a more relaxed, supportive setting, including those with developmental disabilities such as autism spectrum disorders, as well as children with sensory sensitivities.

Visual supports including visual schedules, list of expected behaviors and social narratives, will be available for use. Trained professionals will be available for support during the programs.
