

Summer Camp 2022 • 6-8 Team Students

June 7-9 • Measure Twice, Cut Once!

Join us for a week of carpentry fun. Work together to build two Little Free Libraries, one to be installed on our campus and one to be raffled off and installed in a neighborhood near you. Carpenters will also take home an individual project at the end of the week.

June 14-16 • GLHF (Good Luck, Have Fun)

Calling all gamers! Spend the week creating a story, characters, objects, and backgrounds in an 8-bit pixel world, transforming your ideas in the Bloxels app on the iPad. Walk away with a 2D 8-bit video game that you can share with your friends and family. (Students must be able to work independently with an iPad.)

June 21-23 • A Stroke of Genius

Artists will study the work of Chuck Close while making individualized pieces of art using different media. Throughout the week, each artist's piece will be combined to make one big picture that represents what it means to be a student at LGS. The masterpiece will be revealed to parents on Thursday.

June 28-30 • 3-2-1 Action!

Step into the film industry for the week and produce a short movie, focusing on the soundtrack, by using Music Maker Jam and iMovie apps. The red carpet rolls out for a movie premier on Thursday!

July 12-14 • Sweet Sensations

Get ready to fulfill your sweet tooth needs! Bakers will learn to bake and decorate a variety of desserts that will be available at their bake sale at the end of the week.

July 19-21 • STEAM Week: 3D Printed Art

Using Maker's Empire on the iPad, students will participate in a 3D adventure that begins by learning how to design and make objects using 3D software. Be sure to visit our 3D art fair on Thursday. (Students must be able to work independently with an iPad.)

July 26-28 • Adventure Week!

Tap into your wild side and join us for adventures offered right here in beautiful Ohio. A Segway Tour of Cincinnati, a visit to Fort Ancient Cavern, and Swift Movement Studio will have you craving more!
